

Honeoye Lake Watershed Task Force May 2022 Update

1. The Honeoye Lake

- a. Honeoye Lake level was at 803.8 feet currently. About 6 inches higher than normal.
- b. We plan to start collecting water quality data the week of May 9th.
- c. We will start publishing our weekly water quality bog in mid-May. We get 50-100 blog views weekly.

2. Our New York State WQIP Grant Funded Projects

- a. Ontario County/HLWTF NYS DEC WQIP Aeration Engineering Planning Grant
 - i. Princeton Hydro (PH) aeration project update.
 - 1. Public WebEx Information Meeting was held on Tuesday April 26th
 - a. About 80 residents watched the WebEx live and another 100+ have watched the WebEx recording over the last 10 days.
 - b. Very positive feedback on the aeration research project.
 - c. The draft Princeton Hydro Aeration Engineering Planning Report, WebEx presentation, and WebEx recording have been posted on the HLWTF web site at:
 - d. <https://honeoyelakewatershed.org/aeration>

3. Active NYS DEC WQIP environmental & water quality improvement grant in the Honeoye Lake Watershed

- a. 2021 NYS DEC WQIP grant award - Ontario County SWCD and the Town of Canadice are in the process of ordering material and scheduling several Flexamat road ditch projects on Cratsley Hill Rd and Canadice Hill Rd this summer.
